

Seed Grants

BSE Seed Grants

**To date, 93
Seed Grants
have been
awarded to
67 BSE
Affiliated
Professors.**

BSE Seed Grants support the scientific development of our researchers, in particular the junior researchers among the BSE Affiliated Professors.

Seed Grants finance specific activities, such as hiring a research assistant, obtaining a data set or running an experiment, that will lead to the initiation or completion of a specific project. Proposals that lay the foundation for future grant applications from other sources are particularly welcomed.

To date, 93 BSE Seed Grants have been awarded to 67 [Affiliated Professors](#). The most recent grant recipients and their projects are listed below.

BSE Seed Grants 2021

Researcher	BSE Unit	Project Title
Marco Fabbri	UPF	Land Titling and Conflicts: Evidence from a Land Tenure Reform Implemented as a Randomized Control-Trial
